

The Master of Urban and Environmental Planning (MUEP) Accelerated Degree program allows students to fast track the Master's program. Undergraduate students may take up to 18 credit hours of graduate coursework in their senior year.

The below curriculum outlines the requirements of the MUEP program. All graduate coursework should be taken in the order described. If students need to deviate from the below plan, contact the Graduate Advisor to review options.

* Courses have an undergraduate equivalent. In order to ensure that the class will count for credit towards MUEP, students must enroll in the 500+ courses as indicated above. PUP 598 is an MUEP elective but the undergraduate equivalent (PUP 410) can be applied toward the bachelor's degree. Therefore, it is recommended that students take PUP 598 so that it may count toward both degree programs. PUP 531 is required for the MUEP so should be taken instead of the undergraduate equivalent (PUP 432).

** Consult graduate advisor for approved electives. A maximum of 6.0 credits 400-level coursework may be taken as electives during the graduate year. 400-level coursework taken during the senior year is not eligible to be applied toward the MUEP degree.

*** Culminating experience options are a traditional capstone PUP 580 Planning Workshop (5.0 credits), a professional project PUP 593 Applied Project (5.0 credits), or a thesis PUP 599 Thesis (6.0 credits).
