**Total credits required for concurrent MUEP/MPA degree 71.0**

**Shared Coursework**

\*Courses indicated with an asterisk are shared between the MUEP and MPA plans of study. No more than 18.0 credits may be shared between the plans of study.

**MUEP Core Requirements**

The listed classes are required and cannot be waived or substituted, with the exception of PUP 576. PUP 576 may be waived with ample GIS experience. A formal education (degree, certificate, minor) in GIS or specific ASU undergraduate coursework (GIS 205, GIS 211, and GIS 311) automatically qualifies students for the waiver. Any other circumstances (other coursework, internship, volunteer, or work experience) must be petitioned. Submit the *Course Waiver* form to check for waiver eligibility. A substitute course for PUP 576 must be chosen from the *Approved Method Courses* list.

**MUEP Electives**

Any graduate level GCU, GIS, GPH, or PUP course may be taken as elective. Interdisciplinary courses may be taken, but must be approved by the department if they are not on the *Approved MUEP Electives* list. Submit the *Petition for Transfer or Interdisciplinary Elective Courses* form to request approval. Electives may be taken at any time; the outline above is a guideline for distributing enrollment equitably throughout six semesters. A maximum of 6.0 credits of 400-level elective coursework may be included on the plan of study but must be approved by the MUEP Director. Contact the MPA Program Coordinator for approved PAF electives.

### **MUEP Culminating Experience**

Culminating experience options are a traditional capstone PUP 580 Planning Workshop (5.0 credits), a professional project PUP 593 Applied Project (5.0 credits), or a thesis PUP 599 Thesis (6.0 credits).

### **Time to Completion**

The MUEP/MPA degree is designed to be completed in three years, with a minimum 12.0 credit hours taken per semester (Fall and Spring enrollment only). Fewer hours may be taken but will prolong the time to degree completion.
