

The concurrent degree curriculum is intended to be completed within 3 academic years. The concurrent degree requirements are as follows:

	Credit Hours
MSUS requires	34
MUEP requires	+47
<i>MSUS/MUEP concurrently in total requires</i>	81
Credit hours shared by concurrent arrangement (20%)	(15)
Total Credit Hours Required	66

Courses listed out on the following worksheet pages will be listed as MUEP, MSUS and Shared Coursework. The coursework listed as shared coursework you will want to indicate on your iPOS as such.

Please reach out to the following for specific program questions:

- MSUS - SOSGradAdvising@asu.edu
- MUEP - geoplan.gradadvising@asu.edu

Completing the Coursework

You have flexibility in how you complete your coursework with caveats:

1. SOS 510 should be taken as one of your first MSUS courses
2. SOS 593 will be taken in your last semester
3. SOS 582 must be completed the semester before SOS 593

We encourage you to complete MUEP first. MUEP has a program fee of \$1,250 per semester which is charged in addition to ASU's Graduate Tuition and Fees. By completing MUEP first, you will not be charged the program fee while you complete your MSUS. **To complete the MUEP curriculum you will want to take all courses in "MUEP Coursework" and "Shared Coursework".**

Culminating Experience

You will need to complete a culminating experience for each program. For MSUS, you will take the Applied Project course and for MUEP, you will have the opportunity to choose between:

- PUP 580: Capstone Workshop (5)
- PUP 593: Applied Project (5)
- PUP 599: Thesis (6)

Please note, courses on the following page that have a semester notated are only offered in those semester.

MUEP Coursework – at least 32 Credit hours

Course Number	Course Title	Credit Hours	Semester	Year
PUP 501	Planning History & Theory	3	Fall
