

**Planner 1
St. George, UT USA**

Benefits Offered:

Join a progressive, employee-focused regional engineering firm offering sought-after benefits: Highly competitive salary, including Paid Overtime or Comp Time (your choice), Medical/Dental/Vision/Life - including company paid coverage for domestic partners, generous vacation time, 401K, CEU opportunities, in-house training sessions with lunch, professional membership, company activities and events, casual and family-oriented work environment, and more. With over 14 locations in 8 states, professional growth potential is tremendous at Horrocks Engineers.

Generalized Job Duties:

- Conduct research and analysis of data related to administration of land planning and development projects, including compilation of municipal code, zoning information, development standards, fees and comprehensive plan components
- Complete land use application and submittal packages for residential, commercial, industrial, institutional and mixed-use planning projects.
- Preparation of conceptual layouts, site plans and drawings for proposals, presentations and inclusion in project documents
- Participation in public involvement process of land planning which may include neighborhood meetings, design charrettes, stakeholder planning meetings, client and consultant collaboration meetings and public agency hearings.
- Interpretation of diverse and variable data, with ability to apply relevant components to projects in concise format

Required Skills and Experience:

- Bachelor's degree, along with 2-4 years' experience, in Planning, Architecture or Landscape Architecture, or related field
- Land Development experience in both residential and commercial arenas, with good understanding of sound site planning design
- Graphical presentation abilities, including proficiency in AutoCAD; experience with Sketch-up, Revit, Photoshop, LandFX or other similar software is preferred
- Must possess excellent communication and interpersonal skills as this position plays an important role in interacting with the public, clients, agencies and peers
