GIS Analyst II
North Wind Resource Consulting, LLC

North Wind Resource Consulting, LLC is seeking a qualified GIS Analyst II with 2-5 years’ experience to support current cultural and environmental projects out of our Phoenix, AZ office. The selected individual will conduct data gathering, conversion, and analysis of GIS data and prepare data documentation and metadata for GIS projects. The candidate must have a high level of skill in preparing publish quality maps and exhibits out of ArcGIS 10.x & ArcGIS Pro and be familiar with processing Trimble GPS data out of Pathfinder Office. The candidate must also demonstrate reliability, a strong work ethic, effective oral and written communication skills and the ability to complete projects independently and/or in small teams in a responsible and timely manner. The candidate must have demonstrable experience with providing graphic assistance to proposals, technical reports, and public involvement meeting materials. This is a fast-paced environment and individuals will need to communicate effectively to technical staff.

This position requires a Bachelor’s degree (Master’s degree preferred) in Archeology, GIS, or Natural Science as well as knowledge, understanding, and experience using GIS software to manipulate, convert, analyze, and map geospatial data. Knowledge and experience using ArcGIS 10.x, (ArcMap, ArcCatalog, and ArcToolbox), ArcGIS Pro and Trimble GPS units and Pathfinder Office is required. Additional experience with Cultural Class III Surveys, Geodatabases, Tablet based field collection, Python scripting, etc., is highly desirable. Applicants should also include any additional experience they may possess, e.g, emerging technologies such as operation of unmanned aerial vehicles for data collection, photogrammetric analysis, etc.

Most of the projects will be cultural resource assessments and figure support, but may also include NEPA documents, fire management plans, environmental assessment support, and environmental remediation support among others. Most of the work will be performed in the office with travel being 15% or less. Therefore, a candidate with experience in the environmental consulting industry with these types of projects is highly desirable. This opportunity affords excellent experience and applications of GIS in diverse environmental fields.

Please submit resume online at http://northwindgrp.com/career-opportunities. Resumes and cover letter can also be emailed to Cody Nelson at cody.nelson@northwindgrp.com. This is a full-time position with benefits. We maintain a drug-free workplace and perform pre-employment substance abuse testing. EEO/AA, M/F/D/V.
